HEAD IMMOBILISER BLOCK

Trauma Head Immobiliser Block for Adults.

Used on casualties with suspected head, neck or spinal injuries. Helps to prevent further injuries during movement and transportation. Easy to use, lightweight, the universal head immobiliser will not absorb bodily fluids, making it easy to clean and decontaminate between uses. Head supports are made of two plastic-coated, closed-cell foam with...

Trauma Head Immobiliser Block for Adults.

Used on casualties with suspected head, neck or spinal injuries. Helps to prevent further injuries during movement and transportation. Easy to use, lightweight, the universal head immobiliser will not absorb bodily fluids, making it easy to clean and decontaminate between uses. Head supports are made of two plastic-coated, closed-cell foam with large ear holes for monitoring the patient's ear canals. A universal attachment base and two durable, comfortable coated foam straps which fit snugly to the head and chin area. X-Ray/CT/MRI compatible and suitable for most extrication collars, cervical collars, spine boards and stretchers.
